

YOUNG EAGLES PROGRAM

Before-and-After-School Childcare Program

Overview:

West Deptford Township Young Eagles Program is an extended day childcare program providing children with an environment that is safe, friendly and stimulating. The program includes time for rest, play and homework as well as an opportunity for children to interact with adults and peers through a variety of activities. This program is a separate business enterprise that has no direct connection with West Deptford Township Schools. This program is for children who mix well with other children and are respectful to the adults in charge.

Eligibility:

Open to residents of West Deptford Township, the program is for children who will attend grades Kindergarten through 6th Grade. Children who attend Kindergarten in the morning will only be able to attend the AM Child Care Program; children in the afternoon Kindergarten session will only be able to attend the PM Child Care Program.

Middle School students take their assigned bus after school to the elementary school site closest to their home to use the Young Eagles Program.

Non-public school children (K-6) that reside in West Deptford are also eligible to attend the Young Eagles Program. Please note, however, that transportation to and from the non-public school as well as to and from the Young Eagles Program will be the responsibility of the parent.

Registration Fees:

All children must be pre-registered. A \$50.00 non-refundable registration fee per family must accompany the registration. Please keep in mind space is limited!

Children may not start the program without the completion of an information form, which is included in the Young Eagles Program Registration Booklet.

The booklet can be obtained in the Main Offices of Green-Fields, Oakview, and Red Bank Schools, as well as in the Young Eagles Program Office in the Central Office, located in the Middle School. Or, for more information, you may call the Young Eagles Child Care Program Office at (856) 848-4300, X-3218.
